## FOR IMMEDIATE RELEASE

### H & A Productions Teams Up With The Note-ables To Help Raise Funds

**H & A Productions**, in Reno, NV, has recently teamed up with the Note-ables to help raise awareness and funds for a very worthy cause by producing a music video that sends a powerful message to both kids and adults.

The Note-ables, a very unique non-profit organization, has been providing music programs and music therapy to children and adults with disabilities since 1999. The Notables performance group has been playing all over Nevada with between 40-50 “gigs” a year, helping its members gain self esteem and a voice within our society. This program has helped its members gain so much confidence that they have been able to move towards a more independent lifestyle, with some moving into their own apartments and even get married. This organization has allowed people with all kinds of disabilities, from spinal cord injuries to blindness, find a place where they can thrive and are a part of something great.

H & A Productions created a music video titled “Yes We Can (Climb That Wall)” in order to send the important message of working together, overcoming our differences and improving the relationship between child and parent. This video features 4 members from the Note-ables, 2 kids with autism and 2 with down syndrome. The video has been put into a two disc set, which includes the 4 minute music video, a 30 minute documentary, and a piece on the Note-ables organization. This 2 disc set can be purchased directly from the H & A website at [www.handaproductions.com](http://www.handaproductions.com), with a percentage of the proceeds directly benefiting the Note-ables. For more information on the Note-ables, visit [www.note-ables.org](http://www.note-ables.org).
